

Eckman 5-Tool Hanging Tool Tidy

Thank you for buying the Eckman Tool Tidy.

We hope you are pleased with your item. To get the best out of your Eckman Tool Tidy, we recommend the following:

- If you are using the Tool Tidy with the Eckman Add-it-2 Hedge trimmer and Chainsaw, we advise you to mount the power unit as shown to the left. Hold the power unit by the silver coloured part of the bar with the engine below (not above) the tool tidy rack. This will ensure secure storage of your Eckman Add-it-2.
- If you intend to fix the Eckman Tool Tidy onto an interior wall or door of a garden shed, we advise the Tool Tidy be screwed onto on a 2-3" thick, wooden cross beam or strut so that the engine on the power unit will not touch the wall – which could prevent a secure mounting.
